NATURE'S HEART & BRAIN ANTIOXIDANT REMEDY

Blueberry Pterostilbene Nx™

THE ORIGINAL pTeroPure®

BLUEBERRY PTEROSTILBENE Nx™ is a research proven antioxidant that protects your heart and brain from the declines of human aging. Pronounced "tero-STILL-bene", this powerful anti-oxidant lasts longer in the body and has superior up-take compared to other antioxidants like resveratrol. Our Blueberry Pterostilbene Nx is made with clinically proven pTeroPure® which is the only form that has been demonstrated in human clinical trials to reduce blood pressure, improve memory and cognitive function. Amazingly this compound is also known to activate the longevity gene known as Sirtuin. Sirtuin activation in the body allows you to live a longer and healthier life and can actually reverse the signs of premature aging.

Blueberry Pterostilbene Nx™ BENEFITS

- 1 Promotes heart health by maintaining healthy blood pressure levels
- 2 Improves memory, cognitive function and anxiety reduction
- 3 Helps decrease cellular aging through its ability to activate sirtuin
- 4 Blueberry Pterostilbene Nx™ is made with the only proven material PteroPure® in the scientifically proven dose. Unlike other cheaper substitutes you know it works!

"Pterostilbene protects the genetic make-up of your cells so you can live longer"
