Melon SOD Nx™

THE ORIGINAL  **EXTRAMEL®**

EXTRAMEL® is known as 'THE ORIGINAL MELON SOD (SUPEROXIDE DISMUTASE)' and is derived from a rare species of melon grown in the southern region of France. This proprietary melon extract provides an antioxidant mixture that is clinically proven to increase SOD production in every cell of the body. SOD is the body's first line of defense against damaging free radicals that cause disease and aging. * In a published 28 day, double blind, placebo-controlled clinical trial, 70 healthy human subjects had a significant reduction in stress and reduced both physical and mental fatigue compared to the placebo. **ACCEPT NO SUBSTITUTE.** Melon SOD Nx is made with extramel, the only research proven material in the proven dose!
