

Cissus Quadrangularis

NATURAL CALORIE REDUCTION REMEDY

What is **Synetrim[®] CQ** ?

a new dimension in weight loss

Synetrim[®] CQ is known as 'THE ORIGINAL CISSUS QUADRANGULARIS' and is a member of the grape family native to West Africa. This triple action dietary fat and carb blocking plant inhibits the activity of certain enzymes and dramatically lowers the number of calories absorbed from your food simulating weight loss.

Synetrim CQ also helps decrease emotional eating by significantly increasing levels of serotonin. In a published 6 week, placebo-controlled clinical trial, human subjects taking 150 mg of Synetrim CQ twice daily increased serotonin levels by an astonishing 53.4%. In a second 10 week study, subjects lost an average of 19.2 pounds, had a 14.6% reduction in body fat levels, and dropped 3.4 inches from their waistline.

a new dimension in weight loss

SYNETRIM[®] CQ CUTS WEIGHT VIA 3-KEY BENEFITS:

- Increasing serotonin levels by 53.4% so you feel happier and eat less
- Inhibits the enzymes that break down carbohydrates and fat
- Lowers glycemic index of the food you eat

Medicinal Ingredient Facts

Serving Size: 1 Capsule	
Servings Per Container: 70 (35 daily supply)	
	Amount Per Serving
Synetrim [®] CQ Cissus Quadrangularis Extract (Veldt grape/leafstem & leaf)	150 mg
Providing: 3.75 mg (2.5%) Phytogetic ketosterones	
Non-Medicinal Ingredients: Natural base of 350 mg Calcium (as citrate) (Supplying 74 mg of elemental calcium), K-CAPS [®] Vegetarian capsule (Hydroxypropyl Methylcellulose) [Kosher & Halal certified], Silica (natural mineral source).	
DOES NOT CONTAIN: Magnesium stearate, microcrystalline cellulose, soy, gluten, nuts, dairy or fish.	
PROTECTED UNDER US PATENT #7,175,859	

Recommended Use of Purpose: Helba promote weight loss.
Recommended Dosage and Directions: Take 1 capsule 15-30 minutes before your two largest meals on an empty stomach with a glass of water. For even faster results combine with healthy eating habits and an active lifestyle. For even faster weight-loss results, combine with NutraCentials African Mango NW[™], Raspberry Ketones NW[™], Green Coffee Bean NW[™], and Garcinia Cambogia NW[™]. From the makers of WeightOFF[™] - www.NutraCentials.com

Warning/Risk Information: Consult a health care practitioner prior to use. For best results combine with healthy eating habits and an active lifestyle.

CISSUS QUADRANGULARIS... WHAT YOU NEED TO KNOW!

Cissus Quadrangularis (Veldt grape) is new to the weight loss scene but with two solid published human clinical studies leading the way, this powerful weight loss nutrient will be helping people safely lose weight and improve mood levels for years to come! Native to India and West Africa, Cissus is a member of the grape family and has a long history of medicinal and culinary use.

It's only a matter of time before this nutrient gets its turn in the spot light on the popular Dr. Oz show! One can simply not deny the profound research on this amazing weight loss compound. When weight loss researcher Dr. Julius Oben and his team began to evaluate the weight loss properties of this plant, they focused in on phytogetic ketosterones derived from the stems and leaves of this grape. Studies showed this compound had a powerful ability to reduce the absorption of dietary fat, carbohydrates, and starch-derived sugar by blocking the activity of the fat digesting enzyme, lipase, as well as alpha-amylase, and alpha-glucosidase, enzymes that break down starch carbohydrate and starch-derived sugar. This dramatically lowers the caloric contribution of these nutrients ultimately lowering your calorie intake. Research also showed the compound helped control emotional eating by increasing levels of serotonin.

Once the research was completed the precise ingredient used in the studies was branded under

the name Synetrim[®] CQ. This ingredient was later awarded 5 US patents based on the extraordinary findings from the research for this plants role in weight loss and mood enhancement. "When choosing a Cissus Quadrangularis product, choose the Synetrim[®] CQ brand as this is the actual clinical material used in all the weight loss research and is the only brand standardized for the precise level of phytogetic ketosterones proven to work."

"When choosing a Cissus Quadrangularis product, choose the Synetrim[®] CQ brand as this is the actual clinical material used in all the weight loss research and is the only brand standardized for the precise level of phytogetic ketosterones proven to work."

Bottom line the research on Synetrim[®] CQ speaks for itself and it simply cannot be denied! In a published 6-week, placebo-controlled clinical trial, human subjects taking 150 mg of Synetrim CQ twice daily lost an average of 10.5 lbs and increased serotonin levels by an astonishing 53.4%. In a second 10-week study, subjects lost an average of 19.2 pounds, reduced body fat by 14.6%, and dropped 3.4 inches from their waistline. What was also interesting to note in both studies was that bad cholesterol levels (LDL) and fasting blood sugar levels were also dramatically lowered! These are

perfect benefits for heart health and weight loss! According to Cissus expert and researcher Dr. Bruce Abedon, "Synetrim[®] CQ is the only nutraceutical derived from Cissus that is patented and effective for weight loss." Synetrim CQ is protected by 5 US patents and is the only Cissus product to be studied for weight loss and is also the only one that can be legally sold. When it comes to Cissus Quadrangularis the jury is clear! Demand Synetrim[®] CQ if you are serious about getting results and avoiding disappointment when using this incredible weight loss nutrient!
