

# Garcinia Cambogia NX™

**NATURAL FAT STORAGE BLOCKING REMEDY**

## What is Super Citrimax®?

Super Citrimax® is known as 'THE ORIGINAL GARCINIA CAMBOGIA' and is a rare tropical super fruit grown in the remote jungles of Asia. It has traditionally been used to make meals more filling ultimately reducing desire to overeat while also helping to block fat from being made in the body.

In a published 2-week, placebo-controlled clinical trial, human subjects taking Super Citrimax® reduced their 24 hour food consumption by 15-30% compared to placebo group.

In a second 8 week study, subjects lost an average of 11 pounds reinforcing the weight-loss properties of Super Citrimax®

## GARCINIA CAMBOGIA... WHAT YOU NEED TO KNOW!

Garcinia Cambogia has gotten quite a lot of media attention with heavy coverage by Dr. Oz on his popular daytime television show where he covered this nutrient in great detail and interviewed Garcinia expert, Dr. Julie Chen. Dr. Chen was intimately involved in the garcinia research and is considered to be a leading expert on this nutrient.

The active compound of greatest interest in Garcinia is known as Hydroxyctic Acid (also known as HCA). HCA has the ability to inhibit an enzyme that converts excess carbohydrates to stored body fat. It also has the added benefit of increasing plasma serotonin levels so you feel happier and feel more stable. Dr. Chen indicated on the Dr. Oz show that, "garcinia is a dual action fat buster that decreases emotional eating and prevents fat from being made in the body" This being said, for those who tend to overindulge in carbohydrates and eat for emotional reasons, Garcinia Cambogia seems to be the perfect fit! Now here's the catch and what you need to CLEARLY UNDERSTAND in order to protect yourself from being ripped off when purchasing a garcinia product. There is only ONE brand of Garcinia Cambogia called Super Citrimax® that has been studied and proven to be safe and effective in over 20 published clinical studies for appetite control, weight loss, and blocking the body's ability to manufacture and store body fat.

Super Citrimax® is very unique and is the only Garcinia

Cambogia extract available that is standardized for HCA that is naturally bound to both calcium and potassium in the form of hydroxyctrate. This material is water soluble and far more bioavailable in the body, and for this reason, is extremely effective! No other Garcinia material is bound in this manner and cannot be legally sold due to the numerous patents protecting Super Citrimax.

"It must be clearly understood that ONLY calcium and potassium bound Hydroxyctic Acid (HCA) has been demonstrated in clinical trials to be safe and effective in human subjects for weight loss and appetite suppression!" Bottom line, if you are not using Super Citrimax® you are not getting authentic calcium and potassium bound material and you are essentially wasting your hard earned money. In fact, no studies have been conducted on other materials. They are simply unproven and also could potentially be dangerous! In a 2-week clinical trial, subjects taking just 500 mg of Super Citrimax® before their 3 largest meals decreased their daily food consumption by 15-30%. In a second 8-week clinical trial, subjects taking 1500 mg of Super Citrimax 3 times daily before their 3 largest meals lost an average of 11 pounds and had a significant increase in plasma serotonin levels. This is precisely why Garcinia decreases emotional eating and decreases your desire to over eat while also shutting down your body's ability to produce and store body fat. This is a recipe for safe and effective weight loss!

When it comes to Garcinia Cambogia the jury is clear! Demand Super Citrimax® if you are serious about getting results and avoiding disappointment when using this incredible weight loss nutrient!

### SUPER CITRIMAX® CUTS WEIGHT VIA 3-KEY BENEFITS:

- Significantly reduces appetite
- Inhibits fat production & increases fat burning
- Increases levels of serotonin & decrease emotional eating

### Medicinal Ingredient Facts

Serving Size: 1 Capsule	
Servings Per Container: 70 (23 Day Supply)	
	Amount Per Serving
Super Citrimax® Garcinia Cambogia (HCA) [Fruit rind]	500 mg
Providing: 300 mg [80% (-)- Hydroxyctic Acid (HCA)]	
Potassium (as Hydroxyctrate)	80 mg
Calcium (as Hydroxyctrate)	85 mg
<b>Non-Medicinal Ingredients:</b> X-CAPS® Vegetarian capsules (Hydroxypropyl Methylcellulose) [Kosher & Halal Certified], Silica (Natural mineral source).	
<b>DOES NOT CONTAIN:</b> Magnesium stearate, microcrystalline cellulose, soy, gluten, nuts, dairy or fish.	

PROTECTED UNDER US PATENTS: 6,875,891, 7,335,651, & 7,858,128

**Recommended Use of Purpose:** Helps promote weight loss by reducing appetite. **Recommended Dosage and Directions:** Take 1-3 capsules three times daily before three of your meals (total of 1500-4500 mg/day). For even faster results combine with NutraCentials Raspberry Ketones NX™, African Mango NX™, Cissus Quadrangularis NX™, and Green Coffee Bean NX™ before meals. Combine with healthy eating habits and an active lifestyle. From the makers of WeightOFF - [www.WeightOFF.ca](http://www.WeightOFF.ca)

**Warning/Risk Information:** Consult a health care practitioner prior to use. For best results combine with healthy eating habits and an active lifestyle.
